

Hosting 32 - Frequently Asked Questions

Everything you need to know about anonymous darkweb hosting

⚠ IMPORTANT: TOR BROWSER REQUIRED

You must use Tor Browser to access our website.

Download from: <https://www.torproject.org>

GETTING STARTED

Q: What is Hosting 32?

A: Hosting 32 is an anonymous darkweb hosting provider that offers .onion website hosting with complete privacy. We require no personal information, accept only cryptocurrency, and maintain a strict no-logs policy.

Q: Do I need Tor Browser to access your website?

A: **YES, absolutely required.** Our website is a .onion address that only works in Tor Browser. Regular browsers (Chrome, Firefox, Safari) cannot access .onion sites.

How to get Tor Browser:

1. Go to <https://www.torproject.org>
2. Download Tor Browser for your operating system
3. Install and open it
4. Visit our .onion address

Q: How do I sign up?

A: Simple process:

1. Open Tor Browser and visit our .onion site
2. Choose a hosting package
3. Enter a Tor-based email (optional but recommended)
4. Select your cryptocurrency
5. Send payment to the provided address
6. Wait for confirmation (10-60 minutes)
7. Receive login credentials via email within 24 hours

PAYMENT & PRICING

Q: What payment methods do you accept?

A: **Cryptocurrency ONLY.** We accept:

- Bitcoin (BTC)
- Monero (XMR)
- Ethereum (ETH)
- Litecoin (LTC)
- Solana (SOL)
- Tron (TRX)
- USDT - TRC20 (Tron network)
- USDT - ERC20 (Ethereum network)

We do NOT accept: Credit cards, PayPal, bank transfers, or any traceable payment methods.

Q: How much does hosting cost?

A: Three simple plans:

- **Starter:** \$50/month - 10GB storage, 100GB bandwidth, 1 domain
- **Business:** \$100/month - 50GB storage, 500GB bandwidth, 3 domains, daily backups
- **Professional:** \$150/month - 100GB storage, unlimited bandwidth, 5 domains, priority support

All plans include 10 TB/s DDoS protection and Tor-only control panel access.

Q: Are there any hidden fees?

A: **NO hidden fees.** The price you see is the price you pay. Optional add-ons include:

- Vanity .onion generation (up to 7 characters): \$25 one-time
- Custom website design: Pricing varies by complexity

Q: Do you offer refunds?

A: No. Cryptocurrency transactions are irreversible. All sales are final. We recommend starting with the Starter package to test our service.

PRIVACY & SECURITY

Q: What personal information do you require?

A: **NONE.** We do not ask for or store:

- Your real name
- Physical address
- Phone number
- Credit card information

- Social Security Number
- Any government-issued ID

The only thing we need is a Tor-based email for order delivery (optional but recommended).

Q: Do you keep logs?

A: **NO LOGS.** We maintain a strict zero-logs policy. We do not track, monitor, or store:

- Your IP address
- Your browsing activity
- Your website content
- Your login times
- Any identifying information

Q: What if law enforcement requests my information?

A: We cannot comply because we have nothing to give. No logs means no data to share. Your anonymity is protected by design, not by policy.

Q: Is my website content monitored?

A: No. We do not monitor, scan, or review your website content. What you host is your business, with minimal restrictions (see "Content Restrictions" section below).

EMAIL & COMMUNICATION

Q: Can I use my Gmail/Yahoo/Hotmail email?

A: **NO.** Regular email services cannot reach darkweb email addresses. You need a Tor-based email provider.

Get a free Tor email:

Visit: <http://torbox36ijlcevuix7mjb4oiusvwgvmue7jfn2cvutwa6kl6to3uyqad.onion>

Create a free @torbox3uiot6wchz.onion email address.

Q: How can I contact support?

A: Three ways:

- **Email:** derfuhrer@torbox3uiot6wchz.onion (Tor email only)
- **WhatsApp:** +1-639-816-1482
- **Telegram:** @multiservicesprovider

We offer 24/7 support for all customers.

TECHNICAL QUESTIONS

Q: What is a .onion domain?

A: A .onion domain is a special address that only works on the Tor network. It provides anonymity for both the website owner and visitors. Example: our address is hosting32emwoz7nsehecew2cb7alcxu6bqqkihk77rccsrkyknm5jqd.onion

Q: Can I use my own .onion address?

A: Yes! You can import your own vanity .onion address for FREE. We also offer vanity generation service (up to 7 characters) for \$25.

Q: How do I access the control panel?

A: The control panel is accessible ONLY through Tor Browser at a .onion address. You'll receive the URL and login credentials after payment confirmation. This ensures your management activities remain anonymous.

Q: Do you provide SSL certificates?

A: SSL certificates are not needed for .onion sites. All Tor connections are automatically encrypted end-to-end. Your site is secure by default.

Q: What about email hosting?

A: We do NOT provide email hosting. Use TorBox or similar Tor email providers for your email needs.

Q: How fast is the setup?

A: **Same day setup.** After payment confirmation, you'll receive login credentials within 24 hours, usually much faster.

CONTENT RESTRICTIONS

Q: What can I host on Hosting 32?

A: **Almost anything.** We have minimal restrictions and believe in freedom of content. You can host:

- E-commerce stores

- Forums and communities
- Information websites
- Personal blogs
- Marketplace platforms
- File sharing sites
- And much more...

Q: What are the restrictions?

A: Only TWO restrictions:

1. **NO DDoS platforms or booters** - We will not host services designed to attack other servers
2. **NO Child Pornography (K.P.)** - Zero tolerance. Immediate termination.

Anything else is acceptable. We don't judge your content.

Q: Will you shut down my site if someone complains?

A: No. We do not respond to complaints or takedown requests unless it violates our two restrictions. Your site stays online.

BUSINESS & SUPPORT

Q: Do you offer website design services?

A: Yes! We offer custom website design for clients who need professional development. Pricing varies based on complexity. Contact us for a quote.

Q: Is there a money-back guarantee?

A: No refunds due to the nature of cryptocurrency payments. However, we stand by our service quality and 99.9% uptime guarantee.

Q: Can I upgrade or downgrade my plan?

A: Yes. Contact us via email, WhatsApp, or Telegram to change your plan. Upgrades are immediate; downgrades take effect at your next billing cycle.

Q: What is your uptime guarantee?

A: We guarantee 99.9% uptime. Our infrastructure is designed for reliability with 10 TB/s DDoS protection included.

Ready to Get Started?

Access Hosting 32:

1. Download Tor Browser: <https://www.torproject.org>
2. Open Tor Browser
3. Visit our .onion address:

<http://hosting32emwoz7nsehecew2cb7alcxu6bqqkihk77rccsrkyknm5jqd.onion>
